C**Accommodation**

Give the cash equivalent of accommodation provided for the employee and/or his or her family. Deduct any amounts paid by the employee towards the cost of providing the accommodation – for example, rent.

If the employee is provided with living accommodation give details of the rateable value. This is the gross value that applied before Community Charge was introduced. If the property does not have a gross value, enter 'No rateable value established' and give your estimate of what the gross value would have been if rates had continued. If the property is rented, add to the amount of rent and insurance payable by you any amount attributed to the period in respect of a lease premium. See booklet 480 *Expenses and benefits* for how to work out this amount. If the cost of the property, including improvements, is greater than £75,000 you will have to work out the additional yearly rent, see booklet 480 *Expenses and benefits* to arrive at the cash equivalent at box 14 below.

If, as well as providing the accommodation, you paid some of the employee's bills (such as heat and light), show these in the appropriate box or boxes overleaf, whether or not the value of the accommodation itself is exempt from tax.
